

EXECUTIVE SUMMARY

A. INTRODUCTION

The **Technical Education and Skills Development Authority (TESDA)** was created on August 26, 1994 by virtue of Republic Act No. 7796 otherwise known as the TESDA Act of 1994. The Act integrated the functions of the defunct agencies such as the National Manpower and Youth Council (NMYC), the Bureau of Technical and Vocational Education (BTVE), and the Apprenticeship Program of the Bureau of Local Employment (BLE) of the Department of Labor and Employment. TESDA is mandated to become the country's lead institution in molding a workforce that can meet the challenges of trade liberalization and global competition. TESDA was created to mobilize the full participation of the industry, labor, technical and vocational institutions, local government and the civil society for skilled manpower development programs.

The Agency's mission is to provide direction, policies, programs and standards towards quality technical education and skills development, while its corporate vision is to be the leading partner in the development of the Filipino Work Force with world class competence and positive work values.

TESDA accomplishes its mission as national authority for Technical Vocational Education and Training (TVET) for the joint effort of the 22-member TESDA Board and the TESDA Secretariat composed of various operating units located in the Central Office, Regional Offices, Provincial Offices and TESDA Technology Institutions (COROPOTI). Under the direction of the TESDA Board as policy making body, the COROPOTI units of the TESDA Secretariat are tasked to administer and implement TESDA strategies and programs.

These strategies and programs are depicted in the SEEK-FIND-TRAIN-CERTIFY and EMPLOY framework which also account for the Major Final Output (MFO) approved for TESDA by the Department of Budget and Management.

TESDA's programs and projects are implemented through TESDA – Main and its 216 operating units listed in the table below.

TESDA Operating Units	No.
Regional Offices	16
Provincial Offices	74
District Offices	6
Regional Training Centers	16
Provincial Training Centers	47
Technical Vocational Schools	57
Total	216

TESDA maintains a Revolving Fund under its Sariling Sikap Project (SSP) which was authorized under Executive Order No. 939 dated March 2, 1984. The unexpended balance of SSP at year end is transferred to the TESDA Development Fund.

The TESDA-Main has five books of accounts consisting of the General Fund, Technical Education and Skills Development Project (TESDP), Centers of Excellence in Modern Manufacturing Technology (CEMMT), Expansion of Dual Education and Training Program (EDETP) and SSP Revolving Fund.

B. ORGANIZATIONAL SET UP

TESDA is governed by a 22-member TESDA Board, as the policy making body, while the administration and implementation of its programs and projects are tasked to the TESDA Secretariat composed of various operating units located in the COROPOTI headed by Secretary Emmanuel Joel J. Villanueva, Director General, with Cabinet rank. To date, TESDA has a total personnel complement of 3,914 including regional offices consisting of 3,558 permanent, 67 co-terminus employees and 279 casual/contractual/job order. For the breakdown see Annex 1.
